

Wire Harness Engineering Solutions

AUCOTEC Engineering Base Partner

North America

## From Concept to Production — Precision Wire Harness Solutions

We specialize in custom wire harness design, fast prototyping, and manufacturing for engines, heavy equipment, electric vehicles, and more.

### ⚙️ Our Services

- ✓ **Design Engineering** — Custom harness design with Engineering Base digital twin technology
- ✓ **Rapid Prototyping** — 4-6 week turnaround for prototype assemblies
- ✓ **Manufacturing** — Full production capabilities with quality testing
- ✓ **3D Integration** — Seamless CAD integration for complex assemblies

### ⚡ Industries We Serve

Automotive	Heavy Equipment
Electric Vehicles	Aerospace
Rail Vehicles	Marine/Ships
Agriculture	Defense

### ⌚ Digital Twin Technology

As the exclusive North American partner for AUCOTEC's Engineering Base, we bring cutting-edge digital twin software to streamline your wire harness engineering.

**Real-Time**  
Collaboration

**Automated**  
Documentation

**Seamless**  
Integration

### 👤 Why Choose BWS?

1

**Expert Team**  
Decades of combined experience

2

**Fast Turnaround**  
4-6 week prototyping

3

**Full Service**  
Design to production

4

**Quality First**  
100% tested assemblies
